READING GUIDE

Contents by theme

Each article appears once, under its main theme. Within each section, articles are ordered by publication date.

New models and shipyards
5 articles · pages 3–7

Boat shows and events
6 articles · pages 8–13

Market and industry
3 articles · pages 14–16

Charter and destinations
1 article · page 17

Design and innovation
5 articles · pages 18–22

Accessories and components
4 articles · pages 23–26

People and companies
2 articles · pages 27–28

Five must-read articles
Editorial picks, recurring themes and methodology · page 29

Dates refer to publication by the magazine, not to the events covered. Reports of forthcoming events and announced projects retain the time perspective of the original articles.

EDITORIAL SELECTION

Five must-read articles

Five articles selected for economic significance, hands-on testing or technological and industrial relevance—not a popularity ranking.

01 Italy’s nautical tourism generates €5.7 billion in economic activity

An economic overview of Italian nautical tourism and its infrastructure gaps.

Source: The Yachting Voice · 3 October 2026 · Italian original

02 Fiart SX5: an exclusive sea trial at the Genoa Boat Show

A hands-on sea trial that looks beyond the Fiart crossover’s design promises.

Source: The Yachting Voice · 1 October 2026 · Italian original

03 Saxdor Yachts simplifies manoeuvring with Simrad AutoCaptain

Automated manoeuvring as a practical change to the onboard experience.

Source: The Yachting Voice · 5 October 2026 · Italian original

04 Ferrari Hypersail: 100 feet to take on the oceans

Transferring control technology from automotive engineering to ocean sailing.

Source: The Yachting Voice · 18 October 2026 · Italian original

05 Beneteau Group’s NEO programme targets premium refit

Manufacturer-backed refit as an industrial opportunity that extends vessel life.

Source: The Yachting Voice · 24 October 2026 · Italian original

Recurring themes

Innovation and sustainability span products, refit, automation and boat shows.
International expansion and premium services contrast with pressure on smaller boats.

Final note · methodology and coverage

The WordPress REST API was queried for 1–31 October 2026: 100 posts on page 1 and 9 on page 2; page 3 returned rest_post_invalid_page_number. Of 109 posts, 83 with foreign-language URL prefixes were excluded and all 26 Italian-edition articles were included. Titles, dates, links and excerpts were retrieved; full content informed the summaries. No articles were unrecoverable; the sitemap fallback was unnecessary. The 26 article images are their featured images from the API, with captions linking to the original files. The cover uses the FPT article photograph and the user-supplied logo.

This roundup covers the website’s Italian edition. Figures and statements reflect the magazine’s reporting, without independent verification. Grouping and final selections are editorial choices. Collection date: 1 November 2026.
